Dear Parent/Carer,

Re: Cancellation of Year 7 Stottesdon Trip – Monday/Tuesday, 18-19 July 2022

Following the Met Office's updated weather forecast, issuing a 'Red Weather Warning' for extreme heat on Monday and Tuesday, we have taken the decision to cancel the Stottesdon Trip on Monday and Tuesday next week.

We are disappointed to have to make this decision, however having reviewed relevant risk assessments and taking into account the exceptional weather situation, we feel it is necessary to protect the welfare of both students and staff.

We are aware that this decision will be disappointing to the many students who were due to participate in the trip and are currently in communication with Top Adventures for alternative dates in September when students arrive back at school following the summer holidays. I will be in contact once any final agreements have been made.

Next week students should come in to school as normal, following their usual timetable and are advised to come with plenty of water (ideally with refillable bottles). There will be plenty of indoor/shaded areas available during break and lunch time and students will be supported throughout the day.

Can I thank you for your understanding and continued support with regards to the situation and ensuring that everyone across our school community remains safe.

Yours faithfully

Mr Lee Tristham
Headteacher
